

## **2020 Summer Camp Protocols for Operations, Sanitizing, and Social Distancing**

In compliance with guidelines from the centers for Disease Control and Prevention Twirl will implement the following policies for the operation of 2020 summer camps:

- Camp staff members and campers must stay home if they are feeling ill, displaying symptoms of COVID-19, or have had close contact with someone with COVID-19 in the past 14 days.
- All camp staff members are required to wear face masks. While campers may wear face masks, these are not required for kids per the CDC recommendations.
- All camp staff and all campers will have their temperature taken at the beginning of the day. Campers and camp staff will not be allowed inside the building will be sent home if their temperature exceeds 100°F.
- Camper drop off and pickup will happen at their cars in the parking lot to limit exposure inside the building. Staggered drop off and pick up times will be assigned for efficiency and parking lot safety. Parents and caretakers will not be allowed in the building during drop off and pickup. Please take this into consideration for campers who might have separation anxiety.
- Campers will wash their hands or use hand sanitizer when they arrive at camp, when they change rooms, and as they leave camp.
- Campers will be divided into smaller groups not to exceed nine campers. To limit exposure, these groups will remain as separate from each other as possible.
- Bathroom surfaces that are touched including but not limited to door knobs, faucet handles, toilet flush handles, toilet seats, and liquid soap pumps will be sanitized after each use.
- Non- bathroom door knobs, door handles, light switches, and other items that are touched throughout the day will be sanitized regularly.

- There will be no sharing of dance props or craft supplies. Individual campers will be assigned a dedicated craft supply packet for individual use only. Packets may include crayons, markers, glue sticks, scissors and other items used for crafts and/or dance props. These will be sealed in a bag and labeled with the camper's name for use only for that individual camper. Bags will be distributed and collected by gloved and masked staff members and wiped down with sanitizing wipes or spray at the end of the camp.
- Outside and interior doors will be open as much as possible to allow for air circulation.
- As much as possible, staff and campers will maintain a social distance of 6 feet. Handing out craft supplies and walking campers in and out of the building may be exceptions. To ensure proper social distancing there will be taped squares on the floor designating individual dance and craft/snack areas.
- Craft and snack time will not take place sitting at a table as they have in the past. These will happen with campers sitting on the floor within taped areas.
- Campers will provide their own their own snack and water bottle.
- Unless circumstances change concerning government regulations in the green phase, acrobatic mats (if used at all) will only be for walking, running or jumping (no rolling, crawling, or cartwheeling). Feet only should touch mats and not hands or other parts of the body. Acrobatic mats will be steam cleaned before each use by one group.
- Floors will be steam cleaned or mopped with sanitizing solution between before each camp and also when campers switch rooms.
